

**PREMIUM-ENGLISH FOR ACADEMIC REQUIREMENT
(PEAR) AUSTRALASIA LLP**

COURSE OBJECTIVES AND OUTCOMES

OBJECTIVES

The Course Objectives are to enhance English language proficiency skills, communication strategies, professional confidence, soft skills, and socio-cultural understanding, and knowledge of the OET testing process, in preparation for, and integration into employment in the western world's health sector.

It will achieve this by providing access to quality programs delivered in a blended format.

OUTCOMES

Students are expected to achieve:

- OET test skills in Listening, Reading, Writing, speaking and the mastery in the art of understanding the details, main idea, gist, gathering and giving information and using the right tones in writing and speaking.
- Literacy beyond fundamental levels and appropriate to the student's professional level and employment.
- A well-developed ability to listen and evaluate what is being communicated enabling high quality patient care.
- Improved people skills, such as working with others in diverse settings and backgrounds.
- Heightened awareness of the cultural and social settings of the health-care community in English-speaking countries such as Australia, NZ, UK, and USA.
